

OCCUPATIONAL MEDICINE WITH ADVENTIST HEALTH CASTLE URGENT CARE

Adventist Health Castle Urgent Care's Occupational Medicine Program is designed to reduce health care costs, increase productivity, reduce absenteeism, minimize time lost on the job and enhance employee morale.

Adventist Health Castle Urgent Care is staffed with physicians, nurse practitioners, and an experienced clinical team that have current knowledge of workers compensation and occupational medicine. We accommodate individual customized company protocols; this includes faxing, emailing or calling to provide you with work status immediately after your employees are evaluated.

We deliver a new unique approach to Workers' Compensation with a focus on the efficient use of resources through collaborative and comprehensive care. We work in tandem with the employee, employer and payer to ensure that all services are delivered seamlessly.

"We work to ensure that each patient is returned to an active, productive life. From work-related car accidents to falls on the job, we understand that an early, accurate diagnosis is vital. Our goal is to save companies and employees time and money while providing essential care."

The occupational services offered at Adventist Health Castle Urgent Care include, but are not limited to:

- Workers Compensation Management
- Drug Screening
- Pre-employment Physical
- Breath Alcohol Testing (BAT)
- DOT/CDL and Non-DOT Physical
- Laboratory Services
- On-site X-rays
- Immunizations: Flu shot, TB/PPD, Hep-B, Tetanus
