

Birth Center Visitation Guidelines

Updated August 8, 2023

Maternity patients are allowed four support persons at a time for the duration of their hospital stay. Only one support person may stay overnight unless the patient is in active labor.

All support persons must:

- Be screened for symptoms of respiratory illness (cough, runny nose, fever, etc.).
- Check in at the nurses station before proceeding to the patient's room.
- Wear a visitor's sticker, which must remain visible at all times while in the facility.
- Stay in the area designated by the care providers.
- Abide by Adventist Health's Zero Tolerance Policy for physical and /or verbal abuse of staff, patients or visitors.

If a visitor is under the age of 18, they must be accompanied by a parent or guardian other than the patient at all times.

Thank you for your support and cooperation.
Please call 209-536-3260 for more information.
